Boyd County Fiscal Court requires a minimum of 15" diameter culverts placed on County right-of-way. Culvert size may be larger depending on location and water shed to be determined on individual basis by a representative of the Boyd County Fiscal Court. By issuing this permit, the Boyd County Fiscal Court does not assume liability for the function of culverts due to circumstances beyond the Court's control, excessive rain, stoppages, over weight loads, faulty material, etc. Work to be done beyond County right-of-way may require an easement to be signed.
